TELECOMMUNICATIONS AND INTERNET ACCESS

- 1. Local and long distance phone service for 7 lines and 6 extensions**
- 2. Service should be 10Mb or greater with networking feature. In addition connectivity with other schools in the Southwest Georgia RESA district is highly desirable. Provider should demonstrate the ability to serve students with broadband internet at a metropolitan competitive service charge in over 50% of the geographic area of the schools service area within the term of the service contract agreement (5 years).**
- 3. Service should be 10Mb or greater. If internet is delivered within the same band, then the provider should have the ability to dedicate service through tunneling or other means.**

MAINTENANCE OF INTERNAL CONNECTIONS

- 1. Provider is to maintain and support the internet lines and equipment providing internet access.**
